Acoustic Glass Moving Walls

[www.creatif.org.uk](http://www.creatif.org.uk)

## 02\_Insight: Acoustic Glass Moving Walls

Insight is a very special kind of moving wall with maximum transparency and optimum acoustics.

The philosophy of precise engineering carries through to the internal mechanisms. Basic panels have extension rods within the frame and the final panel in a run features a telescopic nose in a solid material. Alternatively, an expanding jamb can be specified.

Insight from Creatif is the only glass moving wall system to offer a fully glazed pass door, both inset and full-height. The acoustic performance of Insight is a truly remarkable Rw 45db.

## 07\_Technical Information

Insight features superb engineering. Each panel is formed from a 90mm aluminum frame overclad either side with 6mm toughened glass. The frame is concealed by an ultra-thin frit on the inside face in any RAL colour.

	INSIGHT
Acoustic ratings dB (Rw)	53 dB
Panel thickness	110mm
Weight KG/M2	Contact Creatif for details
Max. height	3500mm
Max. panel width	1250mm
Board type	SAA Aluminum Profiles + Glass
Operable seal	Semi-automatic (button operated)
Track system	Aluminum SP+ TP
Tolerance height MM	+/-3mm
Tolerance width MM	+/-3mm

## 11\_Writable Surfaces

Functional, flexible workspaces that are designed for collaborative and agile working benefit greatly from extra writing surfaces for those all important meetings and brain-storming sessions.

With our writable finishes, you can literally write all over our Insight walls.

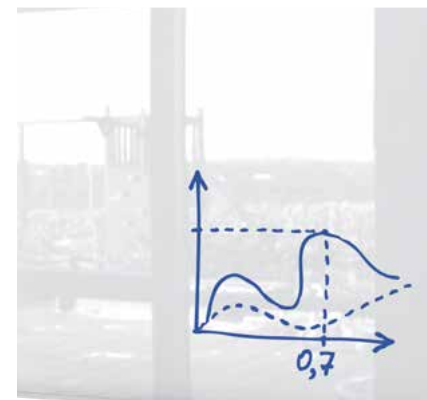

Our Drywipe and Back-painted glass finishes also come with optional handy magnetic capabilities built in.

## 12\_Antibacterial Surfaces

Courtesy of Egger's PerfectSense range of lacquered boards, our Insight moving walls can be optimised for the post-pandemic workspace, with antibacterial surface property in accordance with ISO 22196.

The PerfectSense range of finishes is available as a gloss option with a deep, reflective, glass-like surface, or a matt option which is warm and smooth to the touch, with high resistance and anti-fingerprint properties.
