

Linera

Straight Sliding Doors

www.creatif.org.uk

02_Linera

The essence of Linera is simplicity.

A monolithic and minimalist straight sliding panel system, Linera is all about visual impact and being able to open up large spaces in seconds... Linera is exceptionally easy to operate.

If necessary, Linera can be acoustic too – using the same profiles and mechanical seal system as our Solo product means Linera can give you up to Rw 40dB.

08_Available Panels Elevations

For constraints and variations contact Creatif:
sales@creatif.org.uk

Ironmongery and Vision panels subject to constraints, contact us for Information.

Linera is only available with a twin point track
Inset pass door only available when panel height is 2500mm or more.

Features and Benefits

- » Space flexibility – quickly open and close large areas with ease.
- » Huge in size – the biggest sliding wall available.
- » Efficient use of space – panels slide into a pocket or adjacent to a fixed wall.
- » Acoustic integrity – reduces noise transfer between spaces.
- » No floor track – unbroken floor surface.
