Outpost

Freestanding ReConfigurable Rooms with all flexible sides

Incorporating Float Agile Sliding panel system

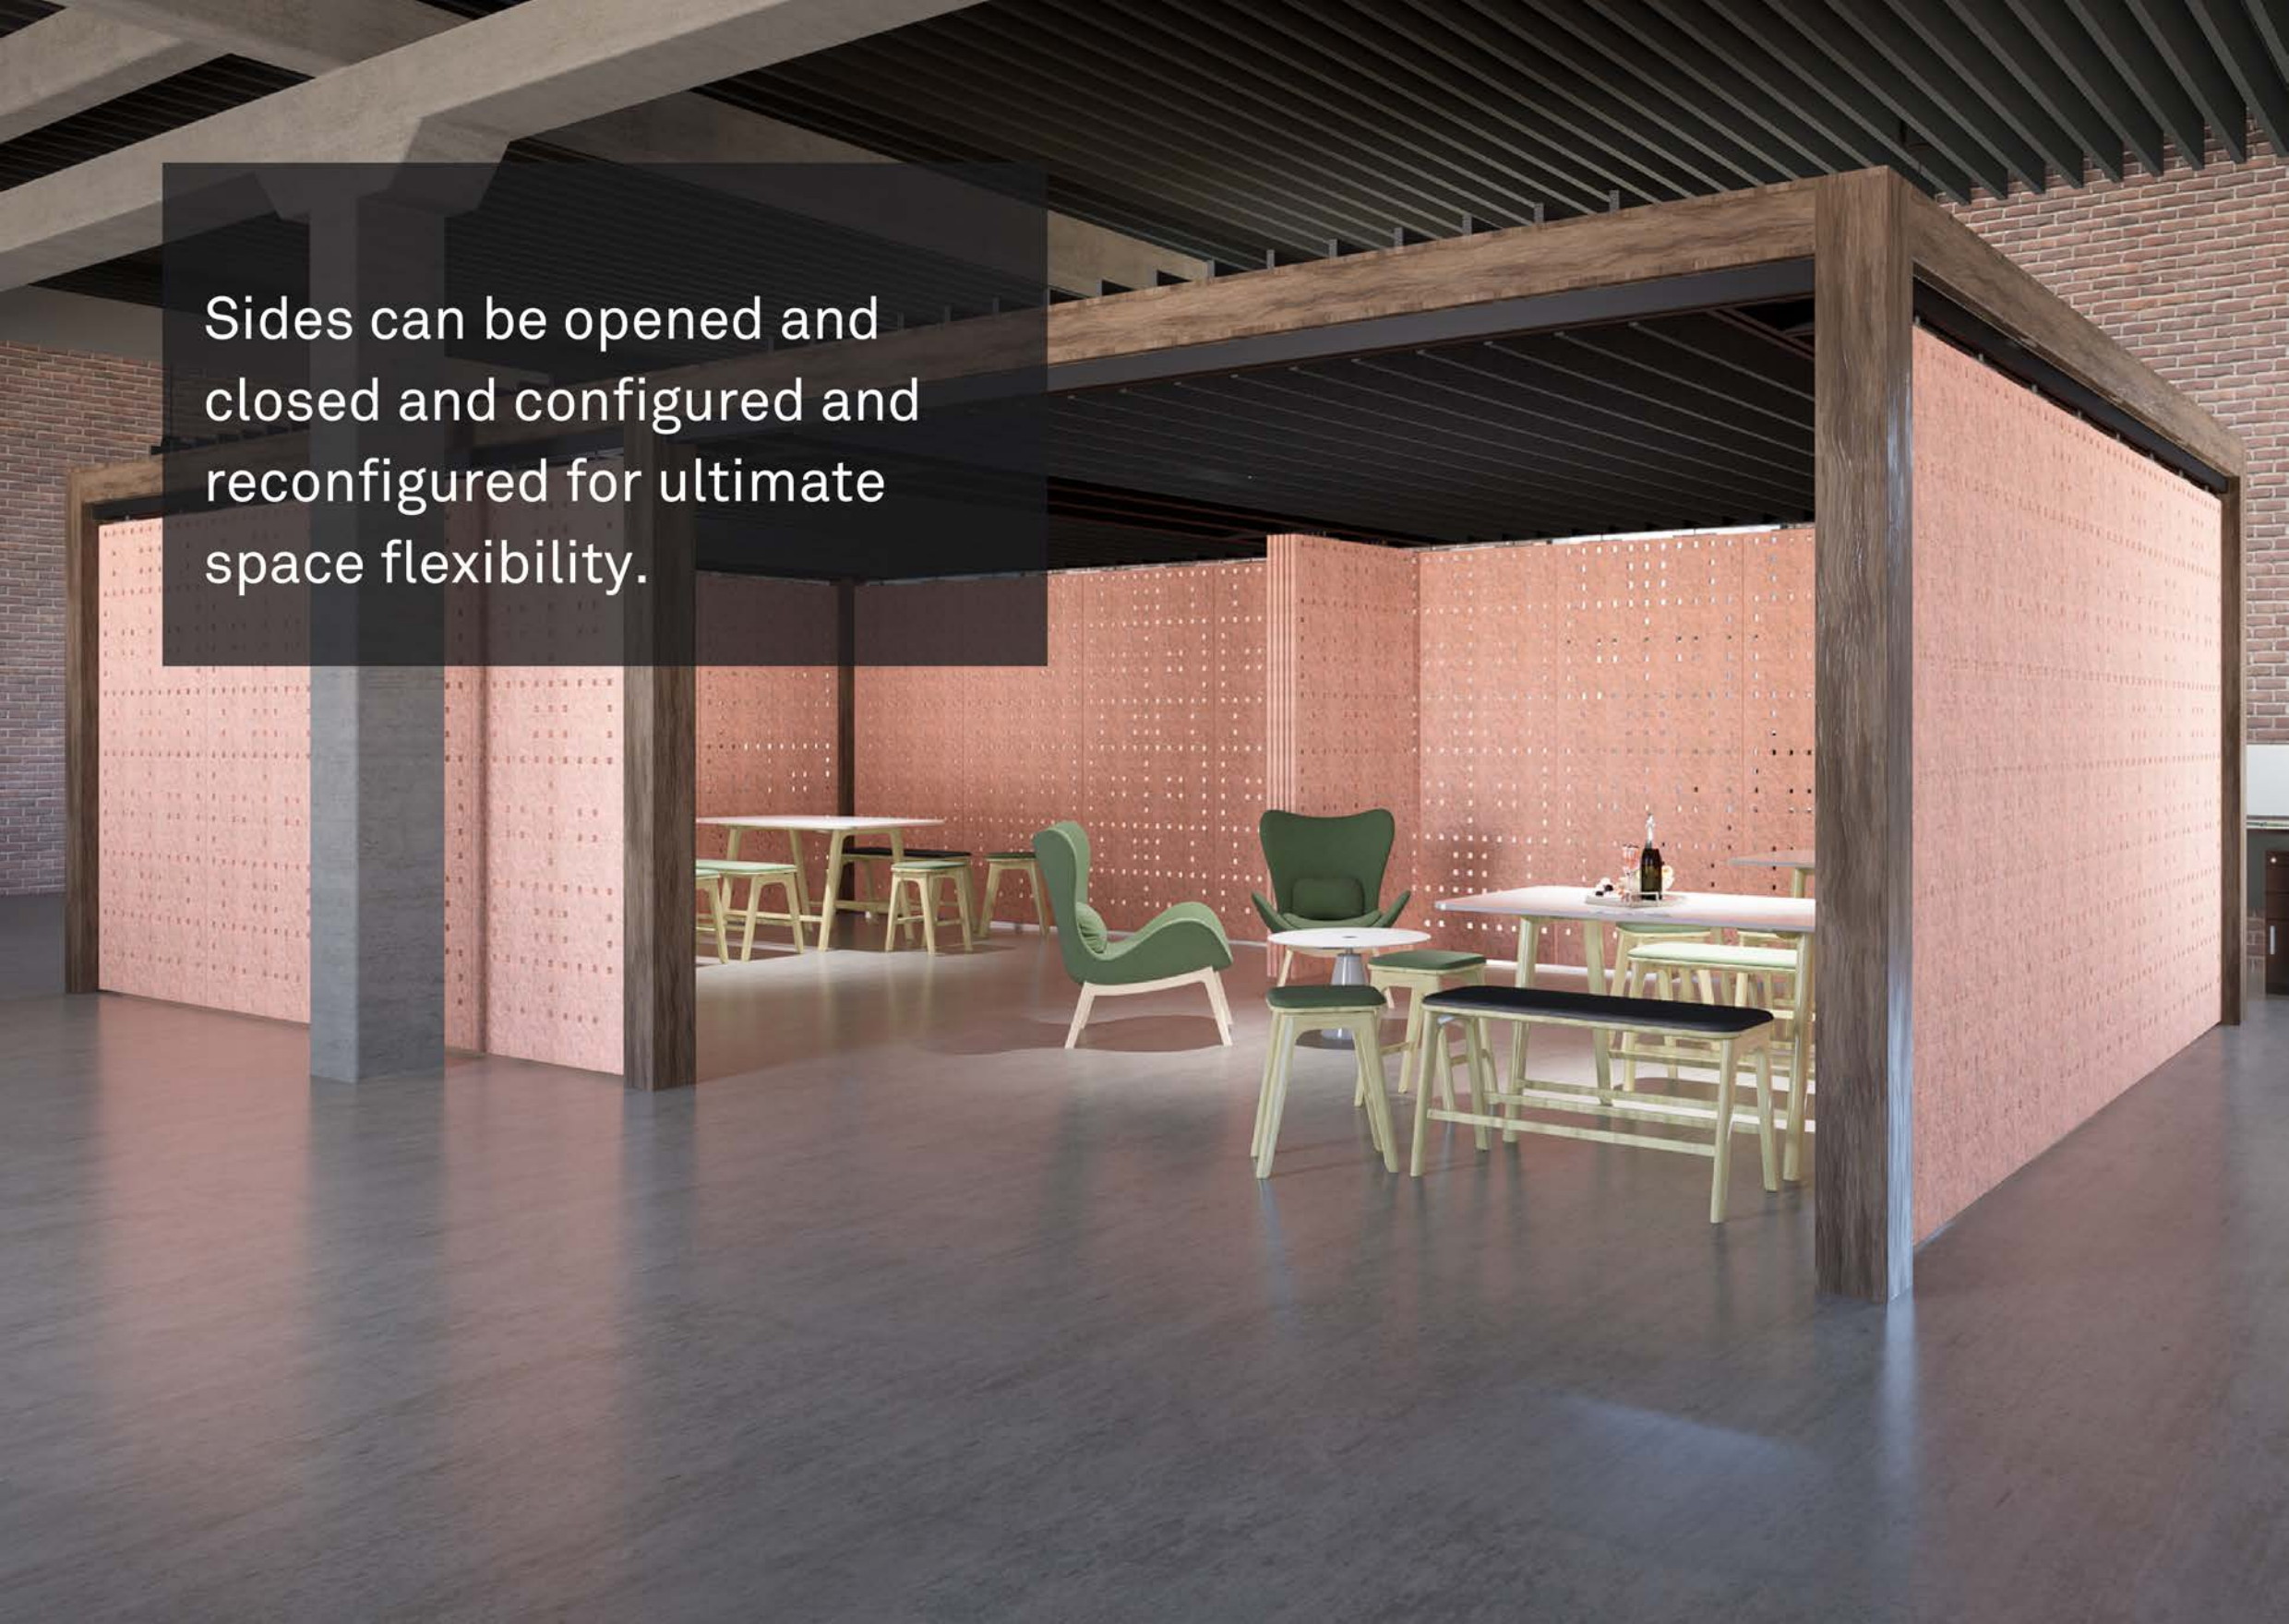

Outpost allows for the creation of dynamic and productive third-space environments within open spaces that can be easily reconfigured and relocated as needed, with no reliance on the building structure.

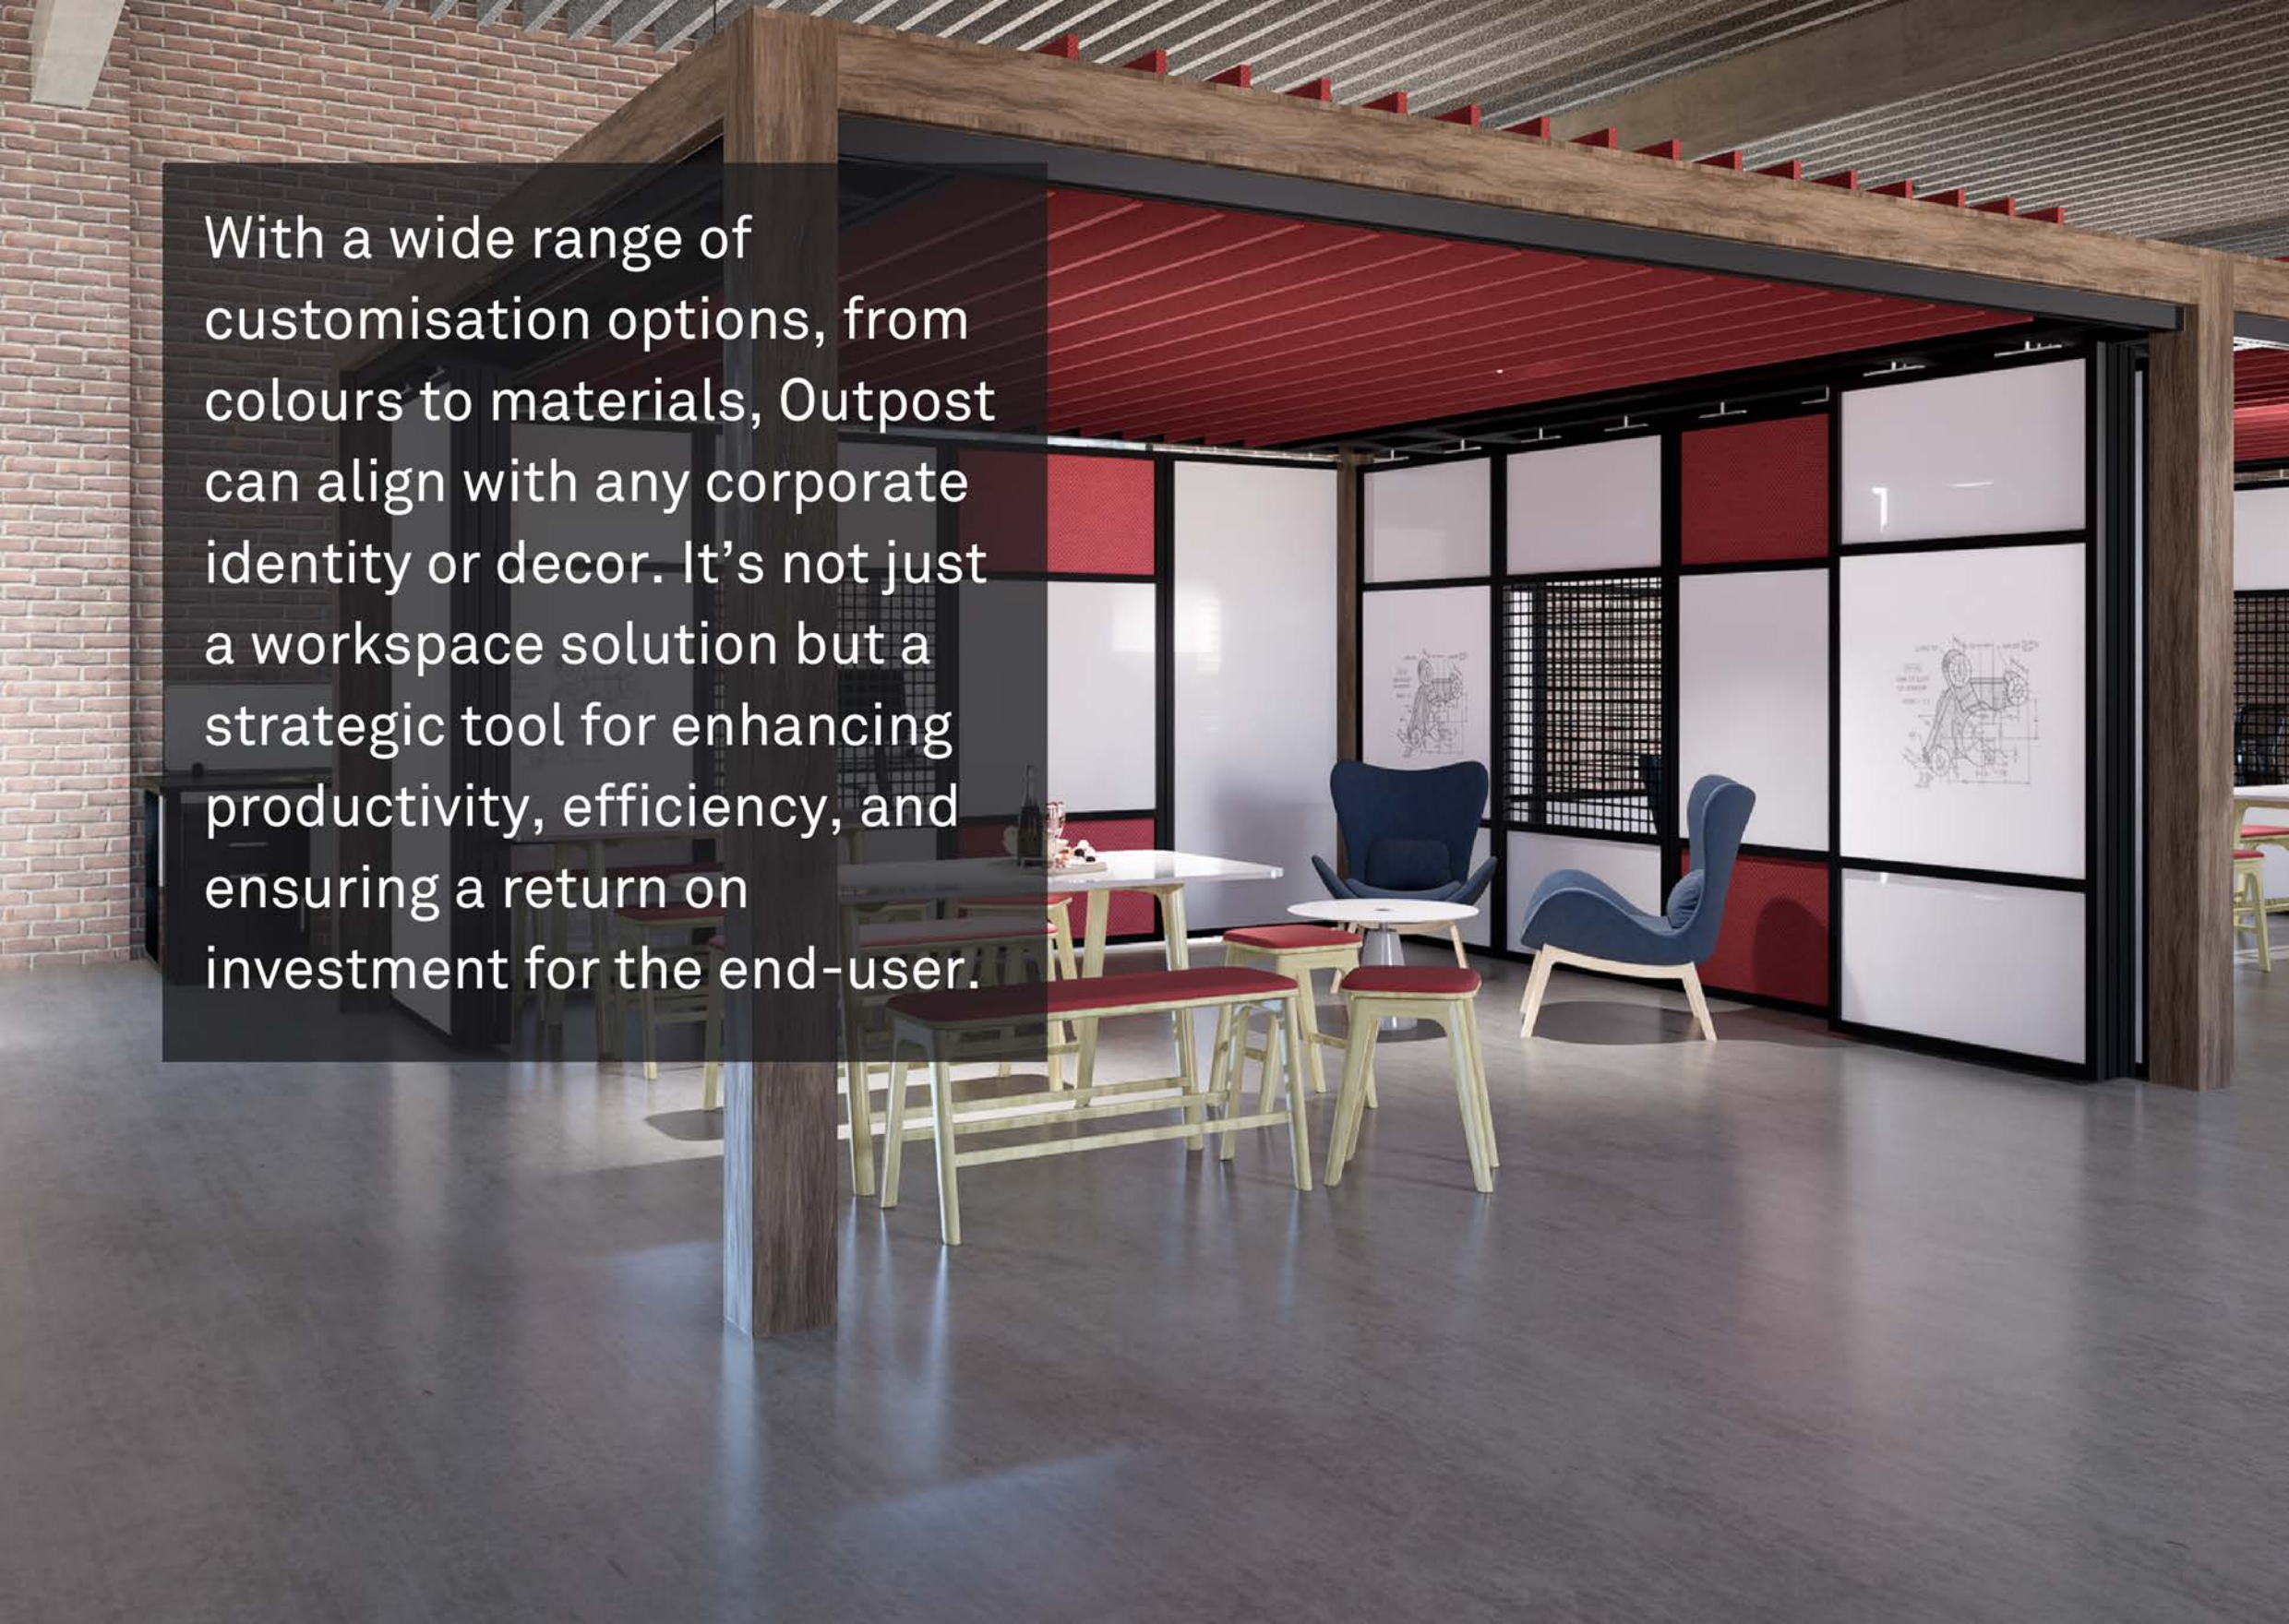

The Outpost system employs lightweight aluminum columns and beams to support our renowned Float agile sliding panels, and facilitating seamless interaction between adjoining spaces through a 'Daisy-Chain' feature.

Sides can be opened and closed and configured and reconfigured for ultimate space flexibility.

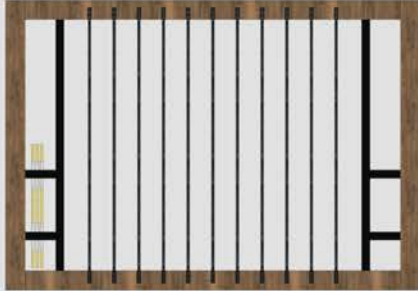

With a wide range of customisation options, from colours to materials, Outpost can align with any corporate identity or decor. It's not just a workspace solution but a strategic tool for enhancing productivity, efficiency, and ensuring a return on investment for the end-user.

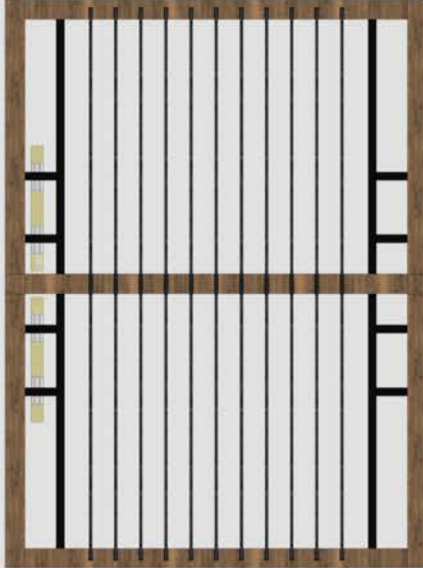

Outpost Module Sizes - V1

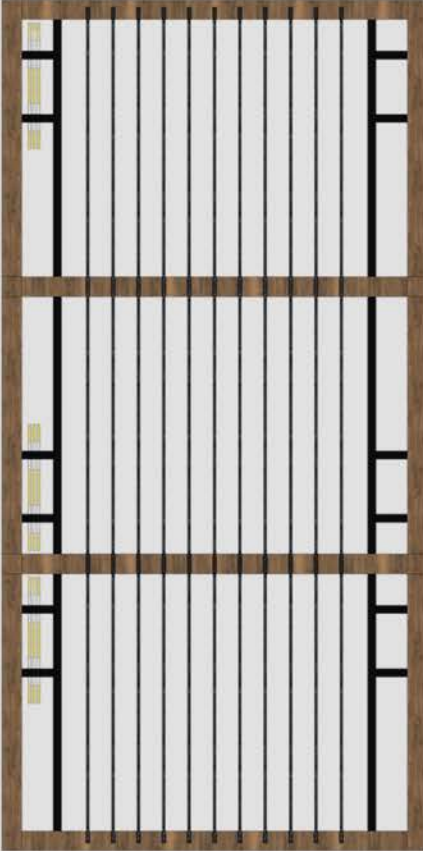

A - 3,360 x 2,350

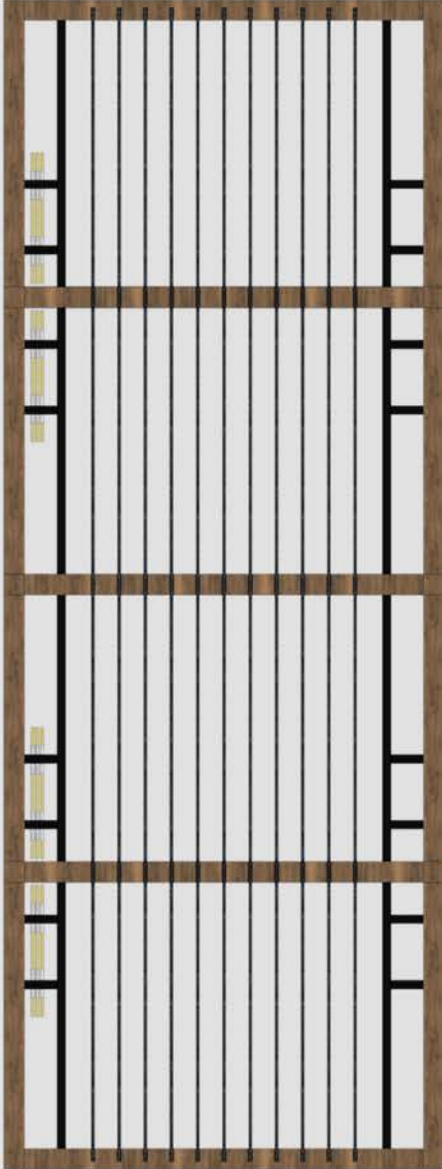

B - 3,360 x 4,540

C - 3,360 x 6,730

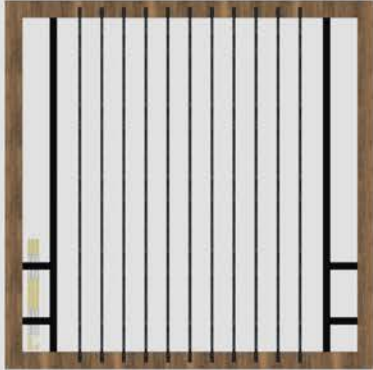

D - 3,360 x 8,920

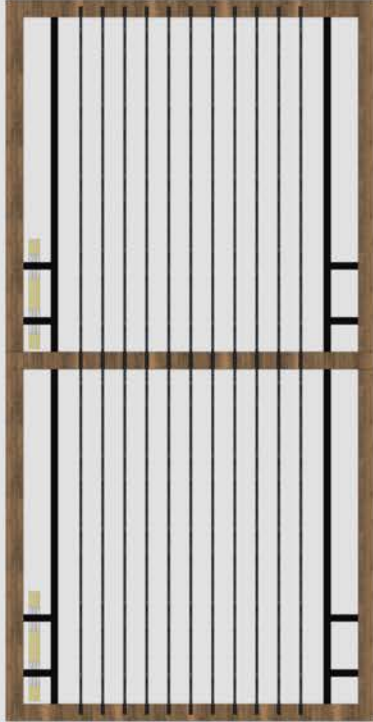

Outpost Module Sizes - V2

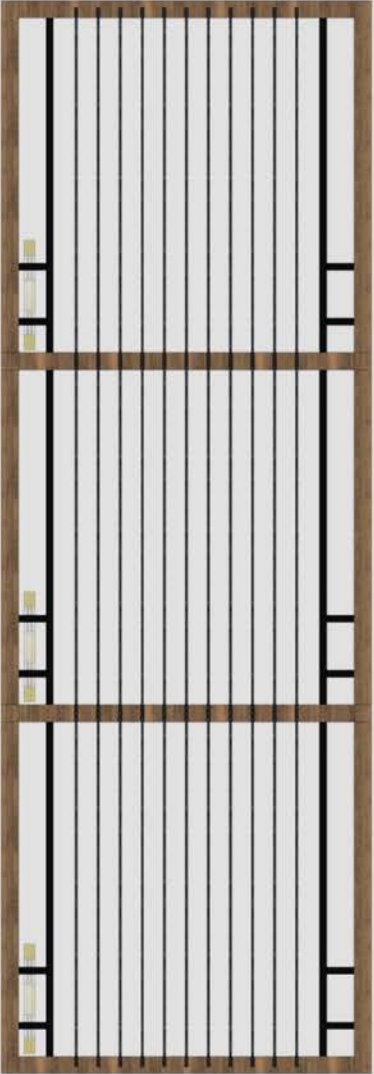

A - 3,360 x 3,360

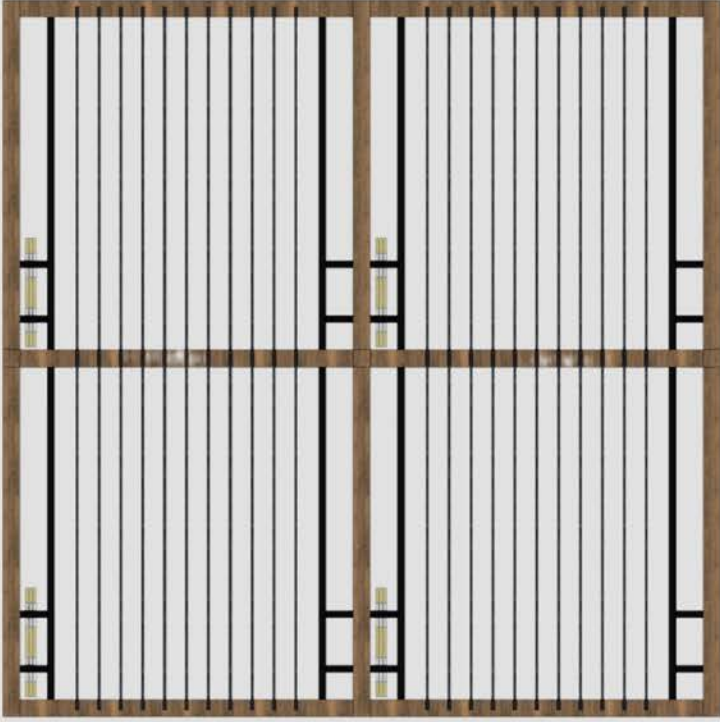

B - 3,360 x 6,560

C - 3,360 x 9,760

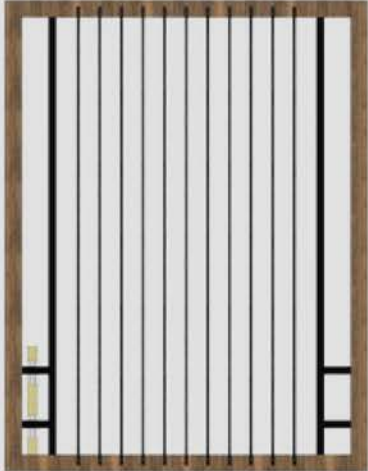

D - 6,560 x 6,560

Outpost Module Sizes - V3

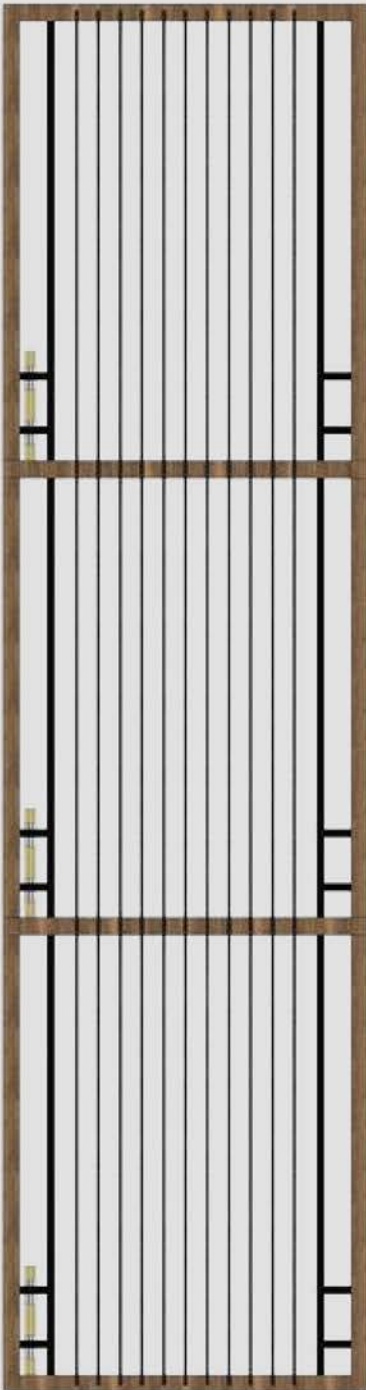

A - 3,360 x 4,370

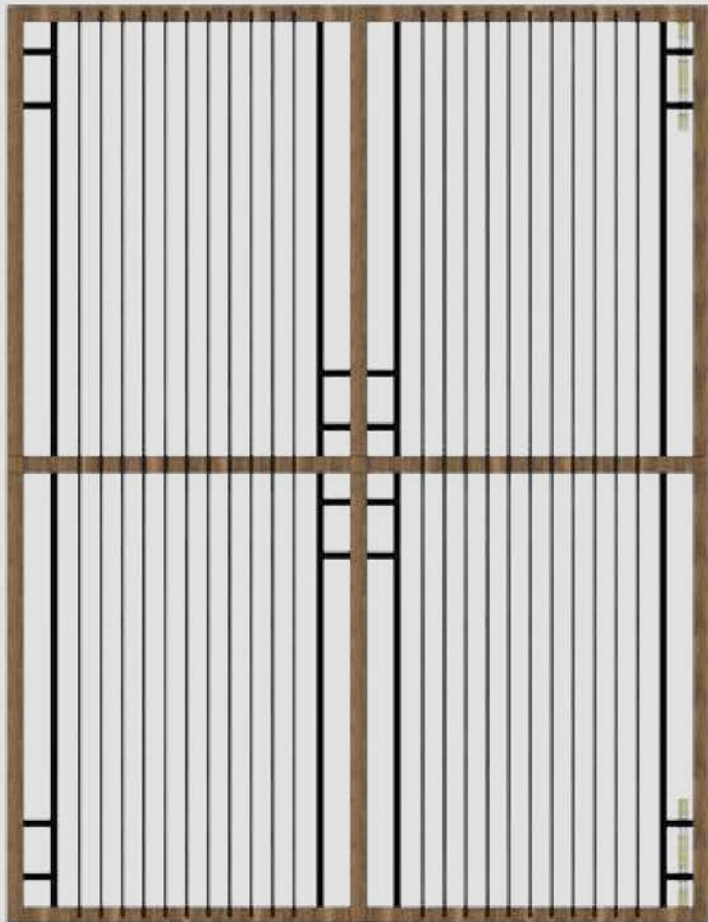

B - 3,360 x 8,580

C - 3,360 x 12,790

D - 6,560 x 8,580

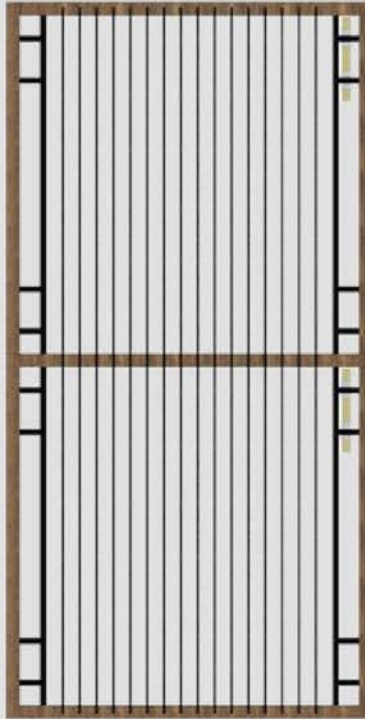

Outpost Module Sizes - V4

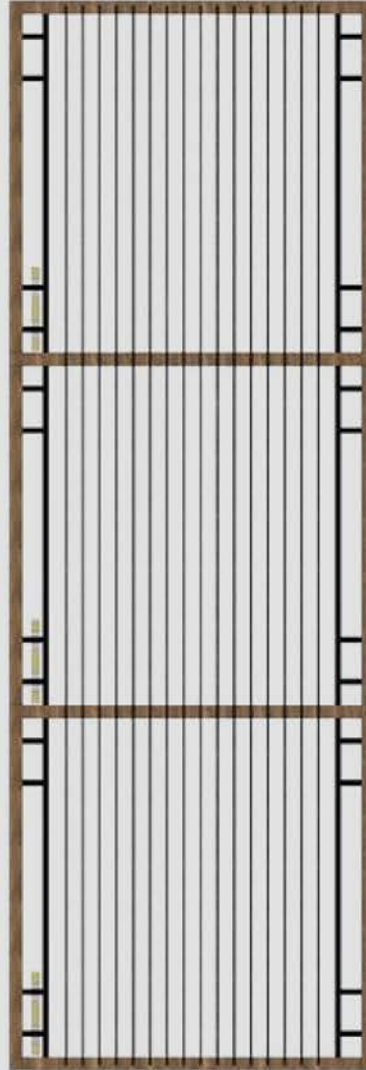

A - 4,370 x 4,370

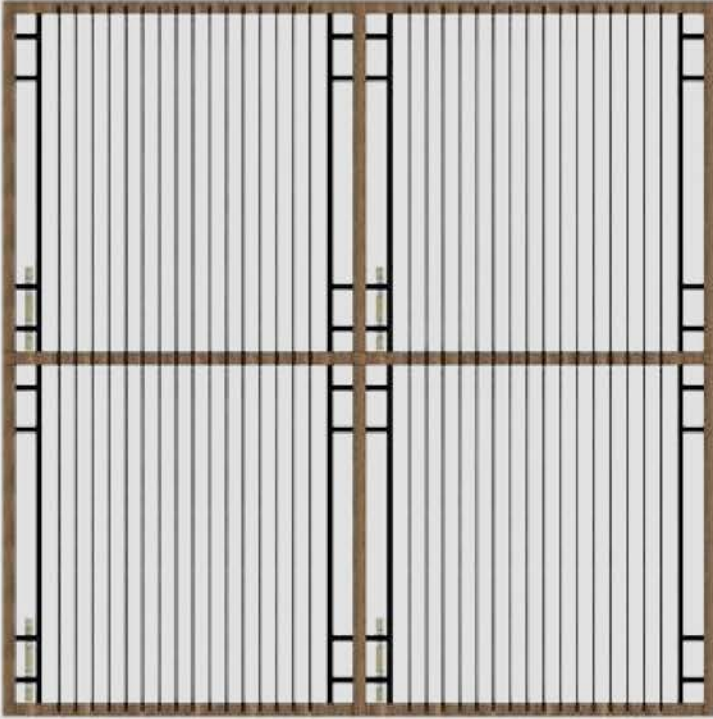

B - 4,370 x 8,580

C - 4,370 x 12,790
